General Comments

When licensing staff arrived, the operator had a sensory bin set up with water, shaving cream, brushes, funnels, cups and small pumpkins.
Planned programming and documentation are evident throughout the room.
Children's artwork is posted on the walls.
The operator has added more natural, wooden play materials and structures to the centre.
The operator leveled off the outdoor play place and add sod. This has made it easier for the children to run around without tripping.
Wooden blocks and have also been added to outdoor play space. The children were observed building towers and balancing on them.
Had a discussion with the operator on activities for the older children before nap time as they wait for the younger children to finish eating. Operator will bring out a new item designed for older children so they can sit and play quietly while the younger children finish eating.
