General Comments

Children had finished morning snack and having some free playtime before getting ready for outdoor play time. While outside the children played in the sandbox, wooden playhouse and sat at the picnic table with a kinetic sand sensory bin.

Children came inside for lunch. Children washed their hands and sat at the table to eat. As the children finished eating, they had time for some free play while the others finished eating. Once all the children had finished eating, they were ready for a nap. The operator uses a spare bedroom and the living room for nap time. It is evident that the operator is following the curriculum based on the learning stories, webbing and children's artwork posted on the walls.

The facility appears clean and there are sufficient materials for the children to learn and explore with.
