<p><b>General Comments</b></p> <p>Licensing staff arrived as two-year-olds and infants were together in the outdoor play area. Facility has an exemption to allow for two-year-olds and infants to share the same outdoor play space. The outdoor play area was well maintained with a variety of learning centres such as a mud kitchen, plants, music wall, playhouse, cars, wooden blocks and items for balance and gross motor activities. Children were engaged in several activities throughout the inspection. Educators were seated on the ground with children and engaging with them at all times. Positive behaviour guidance was observed, and educators spoke to children in an appropriate manner and tone. Young children were content despite the time change over the weekend.</p> <p>Three-year-old and four-year-old children were on a walk with their educators during the inspection and returned for their lunch.</p> <p>Indoor play areas were well maintained, safe and clean. Classroom that has recently changed from afterschool room has transitioned well into a four-year-old room. Materials in the room reflect the interests of the children. Materials were developmentally appropriate and provided for a variety of play based experiences. Many items were wooden and natural. Documentation of learning was posted with current learning stories which included pictures of the children.</p> <p>Transition from outdoor play to lunch and quiet time was smooth. Children were provided with books at the table as diaper routine took place. Children enjoyed their lunch while educators sat with them and had pleasant conversation with them.</p>
