General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classes were preparing for morning snack. The school age children went inside to use the washroom, wash their hands and grabbed their lunch box. All groups were observed sitting at picnic tables as they had morning snack outside.

Several positive changes were made to the indoor and outdoor environment since the last Monitoring Inspection. Inside, the classrooms are bright, organized and welcoming. The rooms contained a variety of age-appropriate materials all on low, open shelving to ensure accessibility for children. Outside, several umbrellas had been added to the play space. While outside the children were observed singing, dancing, building with Lego and playing in the sandbox. An Educator taped large paper on a few picnic tables for the children to color, using paint sticks. The Educators were heard communicating numbers as they took children inside to use the bathroom.

Headcounts were observed as the children lined up to go inside. The transition from the outdoor play space to inside the facility was smooth. Proper diaper changing procedures and hand washing were observed before the children had lunch. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children and actively engaged at their level.
