**General Comments**

Nancy Glendenning and Lindsay Lewis arrived at facility to conduct the renewal inspection and children were finishing up snack and preparing to go outside. The educators were visibly seen cleaning up after the children and encouraging them to wash their hands.

The facility has increased their resources since last inspection. Each environment is set up with many different learning centres and resources for the children to use.

The programming is evident throughout the facility. The educators are taking pictures, doing learning stories, detailing the steps of learning through pictures and words, and documenting children's conversations and interests. The sense of community and belonging is evident in the classrooms. The Operator and Educators work hard to have open communication and relationships with each other and the families.

All documentation was easily verified by licensing staff. The files are organized and complete. Licensing staff can now recommend the facility for licensing.
