<p>General Comments</p> <p>Children were in the outdoor play area upon arrival of the Quality Assurance Monitor. The outdoor play space was well maintained and contained developmentally appropriate activities and materials for the children to engage with. The astro turf was a nice addition to provide an alternative play surface, especially for the infant children who were learning to walk. White boards were also present in the outdoor play area which was used with markers. Each outdoor play area contained many natural play materials such as woods, sand, rocks and mulch. Each play area was within ratio and educators were observed engaging with children. Sunshades and umbrellas were present in the outdoor play area and provided some shelter from the mild rain that began during the inspection.</p> <p>Educators communicated well with each other, and relief staff were observed helping during diaper changes and bathroom breaks. Infants were transported back to the indoor play area safely in a wagon and appeared to enjoy it very much.</p> <p>School aged children had walked to a tennis court to engage in outdoor games for the morning</p> <p>All staff files were well organized and contained all required documentation.</p> <p>Positive behaviour guidance was observed at all times throughout the inspection.</p>
