General Comments

Regular monitoring inspection was performed on this date. Children were sitting for morning snack upon arrival of licensing staff and the infant was napping. Children had books available to look at while at the table waiting for their snack to be prepared. The table was clean, and the home was organized and well maintained.

Children were given their snacks from home and the educator sat with them and engaged in pleasant conversation with them. The educator models appropriate table manners and encouraged children to speak politely. Children's hands and faces were washed after snack.

Transition to outdoor play was observed, children were provided with appropriate warm clothing for the cold weather. Children were encouraged to get dressed independently while the educator provided assistance as needed.

Outdoor play area is fully fenced, it was well maintained and safe. It contained a variety of materials for children to engage with.

At all times throughout the inspection positive behaviour guidance strategies were utilized.
