Comments:			

<p>General Comments</p> <p>The children use the gym and classroom during the program. The classroom is set up with curriculum areas represented such as a variety of board games, blocks, a kitchen, tent, writing utensils, and paper. The educator played a game of bingo with the children today. The children also played ball games and skip in the gym and a game was played with all the children. Remember to ensure safety of all children by providing consequences for behavior involving aggression as this was not viewed today. Positive guidance techniques help children learn appropriate acceptable behavior this includes redirecting negative energy and reflecting with children on their behavior. Ensure direct supervision can be provided for school-age children when experiencing concerns. When everyone was in the classroom space and most children engaged in a game, behavior concerns were reduced, and the educator was vigilant to recognize any. The educator helped the children playing a game and listened to other children when they requested something or asked a question.</p>
