General Comments
<p>Five children were actively playing, and one child was napping during the time of inspection. Fifteen-minute checks were being completed on the napping child.  Consent to give medication was signed by the parent and being recorded properly.  The centre is very clean and bright.  There is evidence of planned programming and documentation of the children's learning.  Children seemed very comfortable in the environment  The educators were comforting and attentive to the needs of the children.</p>
