Name of Early Learning and Childcare Licensing Staff Jenelle Hanscom		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Arrived at newly licensed home to conduct monitoring inspection. Home had construction taking place outside at side entrance that is normally utilized for access for children, alternate door was available to keep children and families away from construction area. Operator advised that the renovations should be completed tomorrow and that the home had delayed opening on this date as the operator had an appointment.

Home was clean and organized. Children were enjoying playing with new rainbow and element wooden set. All materials in the indoor play area were developmentally appropriate and varied. The operator helped to facilitate children's play by presenting balancing activities with the rainbow arches and asked children questions to expand on their learning experiences. Art materials in nap room need to be removed and stored in a separate area.

Lunch time routine was observed, children had brought their lunches from home. The operator washed her hands several times throughout lunch time while helping young children with their lunch when needed. Bathroom and handwashing routine was observed after lunch.

Children's files were reviewed and contained all required documentation.

Positive behaviour guidance and appropriate supervision of children was observed at all times throughout the inspection.

Please ensure to notify quality assurance monitor of any closures, vacations and change in hours.
