**General Comments**

Regular Monitoring Inspection performed. Transition from outdoor play to indoors and lunch time was observed. Children enjoyed their lunches that they brought from home. Operator encouraged independence as the children ate. Educator was observed cutting up grapes for younger child in attendance.

The home was well maintained, organized and clean. The play materials allowed for opened ended and imaginative play opportunities.

The nap room was prepared in advance for the children to easier transition from lunch time to quiet time.

Positive behaviour guidance was observed at all times with the operator speaking kindly to the children and taking the time to explain healthy eating while she encouraged them to try different foods.

Indoor play area could reflect more literacy opportunities. The Talk with Me Program is a great resource to help build an environment that is rich in language to enhance these skills.
