| <p>General Comments</p> <p>Licensing staff arrived at the Early Learning and Childcare Home on June 20th, 2024, to conduct the yearly license renewal inspection.</p> <p>When licensing staff arrived at the facility, the children were napping. The children were in a designated nap room on cots.</p> <p>While inspecting the indoor environment, licensing staff observed a wide range of play materials which included: dramatic play materials, Lego, dinky cars, puzzles, and a couple of variations of wooden letters, small plastic animals, train tracks and a variety of instruments.</p> <p>Staff and child files were complete and very organized.</p> <p>When the children woke up from their naps, the Operator was observed assisted children washing their hands after going to the washroom.</p> <p>Monthly fire evacuations have been conducted each month and licensing staff noted an abundance of play materials in the outdoor environment.</p> <p>Licensing staff and the Operator had a conversation about a walk and a bike ride that the Operator and the children went on the day prior to the license renewal inspection. The Operator relayed to licensing staff that the children rode balancing bikes, with helmets on, and at each driveway, the children would stop and check out their environment for safety hazards and cars possibly backing out of their driveway.</p> <p>Licensing staff recommends the ELC Home for licensing.</p> |
