

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| <p><b>General Comments</b></p> <p>Regular monitoring inspection was performed on this date. Children were observed having their morning snack and some children were dropped off during the inspection. Licensing staff discussed the annual renewal process and required documentation. Operator will be completing her application package during the next few days and providing it to the department. Operator has been in contact with the curriculum team and is aware she can contact them for support for her quality improvement plan. The full application package is required by licensing staff as soon as possible to avoid delay in licensing renewal. Positive behaviour guidance was observed at all times. The Quality Assurance Monitor remains available to support the operator through the renewal process.</p> |
