General Comments

Licensing Staff arrived at the Facility to introduce the new Quality Assurance Monitor before the facility closes for summer break. Upon arrival, the children were engaged in a variety of activities throughout the classroom. The classroom was bright and welcoming.

The children freely explored and engaged in activities throughout the afternoon. Bracelet making was set out at one table while another had materials for the children to make their own paper airplane. As the children lost interest, they were observed using watercolors to create rainbows and built forts to read in. The Educator walked around the classroom, checking in with the small groups of children and offering assistance when needed. The children appeared comfortable with the routine and the materials.

When it was time to clean up for afternoon snack, the Educator was very patient and encouraging with the children as they put away materials and cleaned up. Hands were washed before the children sat together for afternoon snack. Only positive child guidance was observed during today's Monitoring Inspection. The Educator was attentive to the needs of the children, offering hugs and rubbing backs for comfort.
