General Comments

Licensing staff arrived at Miles of Smiles to perform a Monitoring Inspection. There was a small group today as several children were home sick. The morning routine was flexible as morning drop off was later than usual.

There was one school aged child in attendance today due to the storm and cancellation of school. The child was observed helping organize activities for the younger children this morning. The Operator sat with the children as they played in the play kitchen area. One child was observed preparing and serving food to the Operator and using a cash register to exchange money for the meal. Praise and encouraging words were heard throughout the morning. The children showed an interest in fruit this morning, so the Operator printed pictures of strawberries and apples. A table was set up with paint brushes, paint and pictures of fruit. The children were heard laughing and complimenting each other's paintings.

The Operator gave the children a reminder that after painting, they would be preparing for morning snack. Morning snack was pushed a bit later in the morning due to the fact children were late to arrive. The table was sanitized, and hands were washed before the children sat down for morning snack.

Child profiles were reviewed during today's Monitoring Inspection. Files were easily accessed and organized. Attendance records, daily infant sheets, cleaning sheets and flexible lesson planning sheets were complete. A conversation was had on site about lowering books, paper and mark making materials which would allow the children access. The Operator is planning on adding books to a shelf in the main room which would allow the children access to reading materials.
