General Comments Licensing Staff arrived at the facility to conduct the Renewal Inspection. Upon arrival, the children had not yet arrived, and Educators were observed cleaning and preparing activities for the afternoon. Shortly afterward, the buses arrived, and the children were greeted by an Educator before transitioning upstairs to the classroom. Once inside, the children were provided with the opportunity to have afternoon snack. Following snack, the children engaged in a variety of activities, including colouring, drawing, and playing with a large dollhouse. The group then used the washroom and lined up to transition outdoors. A headcount was conducted as the children transitioned to the outdoor playground. As drawing and colouring have recently been of interest to the group, an Educator brought paper, markers, pencil crayons, and pencils outside and set them up at a table. Throughout the afternoon, children were observed participating in a variety of activities, including soccer, basketball, coloring, playing on the swings, and other active games. Educators remained actively engaged with the children and maintained appropriate supervision throughout the inspection. One Educator played basketball and soccer with a group of children, while the other Educator was observed sitting and coloring with a group of children. Positive child guidance was observed throughout the inspection. Staff and child files were reviewed and were well organized and contained all required documentation. Licensing Staff recommends the facility for Renewal.
