<p><b>General Comments</b></p> <p>A renewal inspection occurred today.</p> <p>The children were observed in the indoor and outdoor environments. The children experience safe and caring environments where their emotional and physical health, positive identities, and sense of belonging are nurtured and protected.</p> <p>Licensing observed in both environments flexible areas that are rich in opportunities for sensory learning, social interaction, language, exploration, manipulation, and representation. They are purposely designed and planned to enhance children's healthy development and learning.</p> <p>Educator accommodates children's emerging interests by making children's contributions and thinking visible through displays, documentation, photos and artwork. The children showed a sense of pride as they showed licensing staff all of the fun they've been having this summer.</p> <p>The environment provided materials displayed at children's level that can be independently accessed. Open-ended materials were in each environment. Open-ended materials provide multiple choices, solutions and possibilities for exploration and investigation.</p> <p>The outdoor environment had a wide variety of play materials for the children to explore. The children moved freely outside. The educator recognizes, values and provides a safe space for dizzy play. Children were observed riding their bike down the hill, climbing trees and monkey bars and sliding down the slide on their belly. The children played hide-and-seek as they ran around laughing. The children were also excited to show licensing staff their garden where they're growing onions, green peppers, potatoes, lettuce and more.</p> <p>All child and staff files were reviewed.</p> <p>Facility is recommended for licensing.</p>
