General Comments
<p>Monitoring Inspection:</p> <p>Children and educators observed engaged in a variety of activities this morning including mark making, block play, dramatic play, painting, stories, outdoor play and fine motor games. Each environment is set-up with a variety of materials and invitations for the children to explore. Purposeful planning is evident through documentation, photos and materials added to the environments that support the current interests of the children (music, dance, babies, Christmas, snow, and vehicles). QA Monitor left some recommendations with educators on ways to keep documentation after it is removed from the wall (Example - create a book/binder to put in the Cozy Area for children to revisit). The Twos Room is need of some documentation and photos at the children's level (Example - display on sides of shelving, create a ring with laminated photos of the children, photo blocks, etc).</p> <p>Recommend adding labels to baskets and bins within environments to support children in cleaning up independently.</p> <p>Chili, rice and milk were served for lunch today. Handwashing routines observed after outdoor play, before lunch and during washroom routines. Infant Daily Information Sheets observed to be completed. Monthly fire drills are documented. New staff file (5) review completed.</p>
