### General Comments

#### Monitoring Inspection:

Children and educators observed engaged in a variety of activities this morning including block play, painting, stories and music and movement. Each group alternated time outdoors on the deck to enjoy the warm but rainy day.

Each environment is set-up with a variety of materials for the children to explore. Materials that respond to the children's current interests have been added to the play areas.

Documentation is posted throughout each environment and in each child's cubby. Documentation supports the children's interests and learning experiences.
