Order for Compliance	Regulation	Date to be corrected	Date corrected

<p><b>General Comments</b></p> <p>Licensing staff arrived at the licensed facility to conduct the yearly license renewal inspection. Upon arriving at the facility, one of the two infant room educators were cleaning up from a sensory activity with the children. The sensory activity consisted of coloured bubbles in the tuff tray. The educators quickly cleaned up the bubbles and got back to attending to the children. One educator was reading "Barnyard Dance" to the children.</p> <p>While observing in all classrooms, the educators were engaged with the children throughout the inspection. Licensing staff noted multiple documentation posted on the walls for the children to revisit their learning experiences. There were ample resources in the play environments, and the educators were kind and compassionate while attending to the children's needs. All interaction with the children was positive.</p> <p>While observing the children in the school-aged classrooms, licensing staff noted a sensory activity set up for the children to engage with when they arrive for the afternoon. The activity was a homemade moon sand with ample accessories for the children to explore the sand. The educators in the school-aged classroom were kind and respectful towards the children.</p> <p>All files were organized and contained all the required information.</p> <p>The indoor environments associated with this license were very inviting and clean.</p> <p>Licensing staff recommends this licensed facility for their license renewal.</p>
