General Comments

A Monitoring Inspection was completed this morning. Upon arrival, children were observed walking to the playground, with their educators. Children were observed washing their hands once re-entering the facility, after outdoor play. Children were observed eating snack. The ELC Facility had several well-defined learning / play centers - building, science, arts & crafts, dramatic play, beads, play doh, mark making center, etc. These centers were well stocked with materials and accessories. Several forms of documentation were observed throughout the facility, some of which included: photos, learning stories, and a homemade Robot. Positive child guidance techniques were observed - educators providing appropriate supervision, educators preparing children for transitions, and educators using positive language.
