General Comments
Licensing Staff arrived at the facility to conduct the Renewal Inspection. Upon arrival, the children in the downstairs classes were having morning snack. Upstairs, the infants were in their highchairs engaged in a painting activity. As the group downstairs finished eating, the children used the washroom and prepared to go outside. Hats, sunscreen and water bottles were taken outside with the group. Once the infants were finished painting, the Educators were observed cleaning their hands and faces. Sunscreen, hats and outdoor shoes were put on inside. The Educators sang songs as they got the infants ready for outdoor play. Both the infant and preschool outdoor play area contained a variety of play materials such as sandboxes and accessories, picnic benches, water tables, wooden blocks, age-appropriate play structures, balls and bubbles. A conversation was had on site with the Operator about doing a clean-up of the infant outdoor play area and ensuring play materials are stored properly when not being used. The infants were observed smiling and babbling as one Educator walked around the playground, blowing bubbles with a large bubble wand. The Educator was heard encouraging language, "Wow, bubbles!" "Yes, bubbles! Can you pop them?". The preschool age children were observed playing with trucks, a water table and playing soccer. A playdoh waffle maker and accessories were brought outside for the children to play with. A large group of children gathered around a picnic table, taking turns making Play-Doh waffles. Both outdoor play

General Comments

areas have large trees and Shade Sails which provide plenty of shade.

The transition back inside the facility was smooth. Children were observed washing hands before having lunch. Proper diaper changing procedures were observed and daily information sheets were updated. The nap room upstairs was tidy, and cribs were properly spaced out. Downstairs, some children were observed napping on cots while others engaged in activities at the tables.

Staff and Child Profiles were reviewed as well as Attendance records, Potential Illness Forms, Incident Reports, and Daily Infant Sheets. Licensing Staff will recommend for Renewal once the deficiency is brought into compliance.
