| ELCC Licensing Staff Monica Maltais | Position Title Inspector | | |
| Order for Compliance | Regulation | Date to be corrected | Date corrected |

General Comments

The inspector is on site to conduct the renewal inspection.

During the visit, the morning outdoor play period, indoor free play, lunch period, and rest period are observed.

The inspector observed children engaged in playdough activity, as well as positive child guidance from the operator, such as speaking softly and calmly to the children.

A discussion is held with the operator to reinforce that all children's personal belongings must be clearly labelled with each child's name.

Another discussion takes place to clarify that the required 10 hours of professional development must be completed before the permit's expiration date of March 31, 2026.

The inspector is unable to determine the types of materials in the outdoor play area because of the presence of snow. This element will be reviewed at a later date.

The ratio is respected during the inspection.
