General Comments

Monitoring Inspection - Full Day Summer Camp:

Children and educators observed engaged in a variety of activities this morning including painting opportunities, sensory play, dramatic play, board games, fine motor activities, swimming and water activities. Small groups were observed engaging in activities set-up at the picnic tables under the covered front porch area. Purposeful planning is evident through documentation on weekly planning sheets and through invitations set-up for the children to explore.

A reduced staff-to-child ratio was observed to be met during swim times this afternoon at the Lake. Lifeguards were on duty at the dock and at the floating waterpark.

QA Monitor discussed recommendations with administrator to include more nature books and materials within the indoor play areas. This week the specialty camp is "Little Wilderness"; materials and books are to reflect this interest-based day camp within the indoor environments. Recommend displaying books within each interest centre.

Staff were observed conducting headcounts during transitions and randomly throughout the day. Ensure when staff relieve each other for lunch breaks they communicate the number of children within the group to each other.

Handwashing routines were observed after outdoor play, during washroom routines and before lunch.
New staff file (6) review was completed.
Daily attendance forms are complete and accurate.
