General Comments
<p>A renewal inspection occurred on May 12, 2025.</p> <p>All staff files and all children's files were reviewed by Inspector and were verified complete.</p> <p>Children were observed by Inspector participating in art activities (creating stickers), playing board games, having afternoon snack, creating with Lego, drawing and playing with balls and on the school's playground equipment.</p> <p>Discussed with the Administrator the playground surfacing at the school. It was agreed upon that the children can use the largest playground structure, adjacent to the road, except the two slides as there is insufficient protective surfacing under the slides which could cause the children to be injured if they fell. Also, in this same area, the four swings closest to the road, the children are unable to use those due to insufficient protective surfacing. In both of these places the protective surfacing on the group is gone, exposing the hard ground. In the upper playground area, the children are not permitted to use the stationary equipment due to insufficient protective surfacing. The surfacing in this area is gone, exposing the hard ground.</p> <p>Discussed with Administrator adding items such as tarps and ropes to the area where the children are creating forts.</p>
