ELCC Licensing Staff Jodi Hennessey	Position Title Inspector		

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments A renewal inspection occurred in the afternoon on the license. Upon arrival at the childcare facility the on-site Administrator indicated that some of the children had been there all day as it was Kindergarten transition day. Licensing observed the older children arriving from school and transitioning into activities that were set up and available for them. The children were observed playing with Lego, creating with Pearler Beads, reading books, making bracelets, creating art with pipe cleaners, glue, paint, brushes, coffee filters, and glitter. Licensing observed the educators playing a game of Jenga and Uno with the children at the table. Samples of the children's open-ended art were observed displayed on the walls throughout the learning environment. The children were observed having afternoon snack as well as well as transitioning to outside play. While outside, Licensing observed the children exploring the trail system with an educator as well as playing on the school playground equipment in the lower area of the playground. Discussed with the school-age Administrator the stationary equipment in the upper playground. This is not accessible to the children due to lack of protective surfacing under the equipment. Facility is recommended for license renewal.
