<p>General Comments</p> <p>A renewal inspection was conducted today for the afterschool program. Children were actively engaged in a variety of play-based and educational activities across the learning environments.</p> <p>The space was thoughtfully arranged with multiple invitations to explore. A bead/bracelet making invitation was set up, encouraging fine motor development and creativity. Sensory play was available through a sand and water invitation allowing children to explore textures and engage in imaginative scenarios.</p> <p>Construction and building materials were well represented, including LEGO, wooden blocks, and magnetic blocks. A Barbie house with accompanying Barbie dolls was available for dramatic play, alongside a selection of costumes for dress-up.</p> <p>A cozy reading area featured a range of books accessible to children, promoting literacy and quiet time. Tabletop games such as dominoes were also observed.</p> <p>All staff files were reviewed and found to be complete. A random review of children's files was also conducted and complete. Fire drills have been completed and documented appropriately.</p> <p>A conversation was held with administration regarding attendance records. It was discussed that the two groups within the program be recorded on separate attendance sheets to ensure clarity, accuracy and safety. Additionally, it was emphasized that children should experience consistency in their assigned rooms, with the same educators present to support stable relationships and routine.</p>
